

AB 1550, the Climate Investments for CA Communities Act: Increased Benefits for Senate District 32

SD 32 and the surrounding area already benefit from Greenhouse Gas Reduction Fund investments. AB 1550 takes the next step, *benefitting over 95,000 households in the district with incomes 80% of the state median or less.*

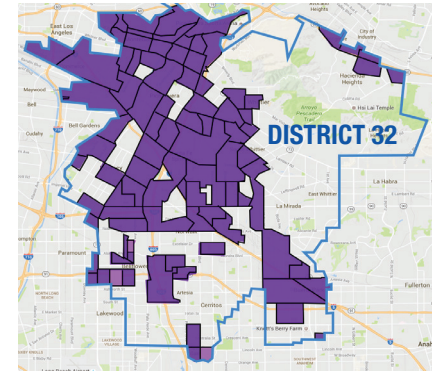

SD 32 is impacted by poverty

Based on their incomes, over 95,000 households would be eligible for benefits under AB 1550, *whether or not they live in designated Disadvantaged Communities.*

Available benefits include home weatherization, clean vehicle rebates, public transportation, affordable housing near transit, urban forestry, low-cost solar power and more.

SD 32 is disproportionately impacted by air pollution

Residents of the Los Angeles-Long Beach Metropolitan Area suffer from some of the highest levels of ozone and particulate pollution in the country, according to the American Lung Association's State of the Air 2016 Report.

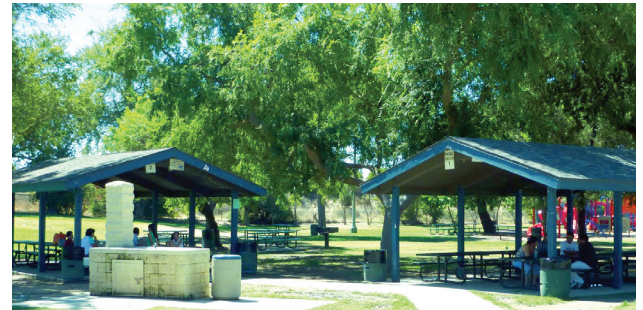

Already funded in SD 32

- \$2,593,906 within the district
- \$5,330,835 impacting the district
- Nearly 50,000 metric tons greenhouse gas reduction

Sample GGRF-funded projects in SD 32

Clean Vehicle Rebates: Over \$2.2 million in rebates helped over 1,100 residents to replace polluting cars with electric and plug-in hybrid vehicles. The district received an additional \$240,000 to replace polluting heavy vehicles and public fleets.

Landscape Survey and Retrofit Program, San Gabriel Valley: SD 32 and surrounding areas benefited from a \$1.4 million grant to the Upper San Gabriel Valley Municipal Water District to improve water efficiency in parks and schools. About 70 sites are targeted for irrigation and landscaping water-use surveys. The project is expected to save 3,000 acre-feet of water.

Bathroom Fixture Replacement, Dominguez and East Los Angeles: \$797,400 was awarded to the California Water Service to replace inefficient bathroom fixtures in the region. The project will significantly reduce water use and household costs.
